SUMMER TALKS 2012

HELMHOLTZ ZENTRUM DRESDEN ROSSENDORF

NANOTRACKING HELMHOLTZ VIRTUAL INSTITUTE

BIO-INSPIRED FUNCTIONAL MATERIALS

Venue: Building 801, Lecture Room P 142

- **August 2nd, 3-4 p.m.**

  Development of selective ligands for P2X receptors - ATP-gated ion channels

  Prof. Christa E. Müller
  Pharmaceutical Institute
  University of Bonn

- **August 20th, 3-4 p.m.**

  Metal complexes for medicinal applications

  Prof. Gilles Gasser
  Institute of Inorganic Chemistry
  University of Zurich

- **August 23rd, 3-4 p.m.**

  Nanobiotechnology using S-layer proteins

  Prof. Uwe B. Sleytr
  Department of NanoBiotechnology
  BOKU - University of Natural Resources and Life Sciences Vienna

Organized by
Dr. Holger Stephan
Dr. Kristof Zarschler
Institute of Radiopharmacy
Helmholtz Virtual Institute 'NanoTracking'
