Actinides revisited 2022

© Upmeier

Dresden, 21st to 23rd September 2022

HZDR

HELMHOLTZ ZENTRUM
DRESDEN ROSSENDORF

Scope of the conference

The conference „Actinides revisited - 2022“ is dedicated to provide a platform to discuss recent advances in the field of actinide chemistry and aims to foster scientific exchange between established scientists and young researchers. The conference sessions cover various aspects of actinide chemistry with a special emphasis on topics related to coordination chemistry. All aspects ranging from quantum chemical calculations of relativistic effects, description of electronic properties to bulk effects in solid state chemistry are covered in this conference.

Topics

- coordination chemistry
- theoretical chemistry
- transuranium elements
- solid state chemistry
- spectroscopy and electronic structure

Scientific contributions

Contributions are welcome in form of scientific talks and posters. Please use the provided template and indicate your intention to give a talk. We would like to encourage PhD students and postdocs to apply for an oral presentation. A limited number of posters may be chosen to be upgraded to a talk.

Dresden

Dresden is the capital of Saxony, situated in the southeast of Germany. For over 800 years, Dresden has been the cultural center of the region and was the residence for Saxon princes and kings for centuries. Today, Dresden is one of the largest scientific and industrial centers of Germany hosting besides the Technical University of Dresden, three Helmholtz, three Max-Planck, three Leibniz and eight Fraunhofer institutions with HZDR as the largest research institution in Saxony.

Venue: Penck Hotel, Dresden

The conference venue in the Penck Hotel Dresden is situated close to the historic center of Dresden in walking distance to Zwinger, opera, castle, and Frauenkirche. It can be reached conveniently by public transport either from Dresden airport or from the two train stations Dresden-Neustadt and Dresden central station.

There is a contingent of rooms reserved for participants at Penck hotel at a special rate. Please book your accommodation directly. Surrounding the venue, a number of other hotels are available as well. Please refer to the conference homepage for more recommendations.

Registration

Please register online on the conference website
<https://www.hzdr.de/AnRev>

Important Dates

First circular	November 2021
Call for Papers	February 2022
Deadline Abstracts (Talks and Posters)	31. March 2022
Decision for Talks	31. May 2022
Registration	30. June 2022

Sponsors

The conference is partially funded by the German Ministry of Education and Research (BMBF) within the research project f-Char (02NUK059).
