The busses will start sharply at the times given in table above!

The busses will be available about 15 minutes in advance of the given times.

Please be at the bus not later than 5 minutes before departure times given above!

In case you require transfers to the airport or railway station for your departure please contact the registration desk.

Public Transport to and from HZDR

If you did not register for the bus transfer and to come to HZDR on Wednesday, November 15 at noon (for participants taking part only on the conference) please use the Bus no. 261 (direction Sebnitz) which connects Dresden Main Station and HZDR.

Please use the link <https://www.dvb.de/en-gb/> to check connections. There is bus stop "HZDR - Forschungszentrum Rossendorf" close to the entrance of the research centre.

More information about public transport to and from HZDR is available at:

<https://www.hzdr.de/db/Cms?pOid=30909&pNid=408>.

Venue

The 16th Multiphase Flow Conference and Short Course will take place at the conference centre of HZDR which is located close to the entrance of HZDR. Signs will show you the short way to the registration desk.

Presentation will be hold in our lecture hall (see photo) while the posters will be placed directly in front of the lecture hall.

Close to the registration desk a wardrobe is available. Please consider that is not monitored. You should not leave any valuables there. No liability is accepted.

Events

The **Short Course dinner on November 13** will take place at restaurant “[Schillergarten](#)” which is nearby the “Blaues Wunder” bridge. It is included for all participants of the Short Course who registered for this event.

The busses will go directly from HZDR to “Schillergarten”.

Begin of the dinner will be between 6:45 and 7 pm.

There will be **no bus transfer to the hotel after the Short Course dinner!**

We recommend to use a tram or taxi to get to your hotel. **Tram line 12 goes directly to Prager Strasse. Tickets for the tram will be provided by the short course organizer for all participants of the dinner.**

On November 14 you will have the opportunity to visit the HZDR facilities

- [TOPFLOW](#) (Transient Two Phase FlowTest Facility) and
- [LIMMCAST](#) (Liquid Metal Model for Continuous Casting).

More information will be given during the conference.

On the evening of Thursday, November 15, we invite you **for the conference dinner** to the restaurant “[Pulverturm](#)” which is located next to “Frauenkirche”. It is included for all participants of the Conference part who registered for this event.

The busses will go directly from HZDR to “Pulverturm”.

Begin of the dinner is at 7:00 pm.

There will be **no bus transfer to the hotel after the Conference dinner!**

“Pulverturm” is close to the city centre and the conference hotels (about 15 minutes walk).

In case you require dietary or vegetarian meals, please inform Mrs. Sylvia Neumann (SNeumann@intercom.de) in advance of the Short Course and Conference!

Short Course lectures

The slides of the Short Course lectures will be provided to all participants of the Short Course for download via a link some days before the event.

Conference Presentations and Posters

Updates on the [programme and posters](#) of the 16th Multiphase Conference and Short Course can be downloaded from the [conference website](#). Abstracts of the posters and oral presentations will be provided to all participants of the Conference for download via a link some days before the event.

There will be a special poster session in the afternoon of November 15. However, the poster walls will be available during the whole period of the workshop and posters can be fixed at any time. The posters will be placed in front of the lecture hall at the same place where the coffee breaks will take place. Poster walls for A0 format posters will be available.

During the poster session all participants are invited to vote for the best poster award. A Best Poster Award (100 €) and two Poster Awards (50 € each) will be granted according to the participants vote. Posters from authors of HZDR will be included in the voting, but will not be eligible for the awards.

The slides and poster will be provided to all participants of the Conference for download via a link some days after the event.

Instructions for uploading abstracts, slides and posters were given to all presenters in a separate document.
