

THE HZDR ALUMNI NETWORK CONNECTS, FACILITATES AND SUPPORTS

Take advantage of our diverse programme and get involved in the network:

- as a participant in our alumni meetings
- as a reader of our newsletter
- as a guest at selected events
- as a speaker at alumni talks
- as a mentor to scientists and inventors
- as an expert by supporting transfer projects

Why join?

Keep up to date about what's going on at the HZDR. Get back in touch with our former and present colleagues. Contribute to the economy and society by being an active supporter of the transfer of knowledge and technology. Initiate synergies between your company and the HZDR.

ALUMNI NETWORK

The HZDR Alumni Network main aim is to keep in touch with former researchers, employees and students and getting them actively involved where and when possible. For instance, alumni who are now working in industry have the opportunity to get involved as experts in our transfer projects.

- WHO?** Everyone who has worked or carried out research at the HZDR
- WHAT?** Networking, career development, support of transfer related projects
- WHY?** Exclusive events, expanding your network and much more
- HOW?** Simply register at www.hzdr.de/alumni-reg and follow the HZDR on LinkedIn

ALUMNI MEETINGS

The alumni event “Business & Beer” takes place twice a year. These meetings kick-start with a company or an exhibition visit and are followed by dinner in the local area. You will be able to engage in interesting discussions, share your experiences and most importantly enjoy the evening together.

ALUMNI NEWSLETTER

“Stay informed about what’s going on at the HZDR” – this is the idea behind our newsletter which is sent out twice a year. The newsletter contains information on current affairs, developments and events at the research centre, as well as activities pertaining to transfer.

ALUMNI TALKS

In order to provide current employees of the HZDR an insight of what type of careers are possible, in particular with regards to business opportunities, we invite our alumni to speak about their path since leaving the HZDR to their current position.

NETWORK OF EXPERTS

When it comes to the development of a new technology, collaboration or the development of a potential commercial idea, the opinion of our alumni is extremely valuable to us. We consult those who work in the business world as experts and involve them in the transfer process. This interaction creates added value that benefits both the alumni and the research centre.

EXCLUSIVE EVENTS

We are happy to invite our alumni to experience the HZDR and its research first hand. No matter whether at the VIP reception on “Tag des offenen Labors“, as a mentor at the Innovation Contest or at the summer parties of the institutes. Our newsletter will keep you posted.

MENTORING

PhD students, scientists and students alike often ask themselves the same question: What do I do after my time in research? The HZDR mentoring programme is there to help you answer this question together with someone who has insight. Alumni provide advice and assistance to current HZDR employees as mentors.
