

InnoSuper

Innovation by Supervising

Supervisors are important driving forces in the development of young talents

As a supervisor in the scientific, technical and infrastructural areas, you are crucial for the promotion of our talents and young scientists, and thus for the innovative strength of our centers – a diverse and at the same time challenging task.

InnoSuper offers you in-depth knowledge in the field of transfer and innovation in form of a three-part training program. Learn how to strengthen the transfer potential of your team and thus your position as a driving force in research and development!

E-Learning

May – June (Time 1-2 h)
